PRIVACY AND COOKIE POLICY

PRIVACY STATEMENT

This Privacy Statement has been updated in accordance with current data protection policies, including the General Data Protection Regulation (GDPR) and the ePrivacy Regulation. It outlines the types of data collected by IET, the purposes for which they are used, and the rights of the user.

Who does this privacy statement apply to and what does it include?
This Privacy Statement applies to all IET entities with their registered office at Piazza Santiago del Cile 8, 00197, Rome (RM). IET is committed to handling user information transparently and in compliance with applicable regulations.

This Privacy Statement explains how we collect, process, store, and protect user information when using the "IET Website" or during any other activities that are an integral part of the company's operations. When referring to the "IET Website" in this statement, we mean the webpages of www.iet.it.
.

What kind of data does IET collect?
As a visitor to the website, you are not required to provide any personal information to browse. However, IET may collect data such as your name, email address, IP address, and other personal information when you interact with the website. To ensure the security and proper functioning of the site, we use cookies and other tracking technologies, in compliance with our cookie policy. Typically, IET does not request sensitive personal data from users. If necessary, IET will obtain the user's consent to collect and use such information.

IET does not engage in collecting personal data on online activities conducted by third-party websites or online services, nor does it allow third parties to collect personal data while users are navigating the website. IET understands the importance of protecting children's privacy. The IET website and services are not intended for children, and it is not IET's policy to knowingly collect or store data related to children.

How does IET use data about you?
The personal data provided to IET may be used to manage the relationship with the user, including any requests made by the user to customize or improve the website and its related

services. Personal data may also be used to protect the rights or property of IET or its users, and to comply with legal procedures, if applicable.

Legal Bases for Data Processing

IET processes personal data based on one or more of the following legal principles: (a) explicit consent, (b) contractual necessity, (c) legal obligations, and (d) legitimate business interests, balanced against the rights of the user.

Sharing and Disclosure of Personal Data

IET may share personal data with members of the IET network and third-party service providers, ensuring adequate protections are in place, particularly for transfers outside the European Economic Area (EEA). The IET website may host various blogs, forums, wikis, and other social media applications or services that allow users to share content with others. It is important to note that personal data provided by the user to social media applications may be read, collected, and used by other users of such applications. IET has little to no control over other users and, therefore, cannot guarantee that the data provided by the user to social media applications will be handled in accordance with this privacy statement.

Further information about the above-mentioned transfers and the measures employed by IET to control them (including copies of relevant agreements) is available by contacting dataprotectionofficer@iet.it. In any case, IET may be required to disclose personal data to comply with legal obligations, upon request from a regulatory authority or during legal proceedings.

Protection of Personal Data

We implement physical, technical, and organizational measures to safeguard personal data, such as: continuous training of relevant staff to ensure they are aware of confidentiality obligations when handling personal data; administrative and technical controls to limit access to personal data based on the "need-to-know" principle; the use of firewalls, encryption, and antivirus software; and restricted access measures.

Although IET employs appropriate security measures once personal data is received, transmission of such data over the Internet (including via email) can never be entirely secure. IET strives to protect personal data but cannot guarantee the security of data transmitted to or from IET.

Data Retention Period

Personal data will be retained for the duration necessary to fulfil the purpose for which it was collected, to comply with legal obligations, or until the end of any potential dispute period.

User Rights

The user has the right to access, rectify, delete, restrict the processing, or object to the use of their personal data. They also have the right to data portability and to lodge a complaint with the relevant supervisory authority.

For any further questions on how to exercise your rights or to file a complaint with IET regarding privacy or the use of personal data, you may send an email to <u>dataprotectionofficer@iet.it</u> or write to the following address:

00197 Rome, Italy

Transfer of Data Outside the EEA

IET transfers personal data outside the European Economic Area (EEA) only when necessary and always with appropriate safeguards in place, such as standard contractual clauses.

Amendments to the Privacy Statement

IET may amend or correct this Privacy Statement at its discretion. To inform users of changes, IET will update the revision date at the top of this page. The updated or corrected Privacy Statement will apply from the revision date. Therefore, IET encourages users to periodically review this statement to stay informed about how IET protects data.

If, at any time, you do not agree with this Privacy Statement (including any periodic revisions), you are required to cease using the website and its services.

COOKIE NOTICE

This site uses cookies to ensure an optimal browsing experience. We use necessary, functional, and performance cookies to analyse traffic and improve the site. User consent is required for the use of non-essential cookies.

To provide users with a more personalized and responsive service, IET needs to remember and store information about how the website is used. This is achieved using small text files called cookies. Cookies contain a small amount of information and are downloaded to your computer or other device from a server of this website. The web browser sends cookies to this website on

IET S.r.l. Società Benefit | P.zza Santiago del Cile, 8, 00197, Roma | P.IVA 13727131008 | info@iet.it | +39 06 83799925 | iet.it | Capitale Sociale € 100.000,00 i.v.

each visit so that it can recognize the user and remember information such as preferences. You can find more information about cookies and how they work by visiting http://www.aboutcookies.org/.

Each time you use this website, personal data may be collected using cookies and other technologies. This Cookie Statement is part of our Privacy Statement, which provides additional information about IET and the protection of visitor data.

Types of Cookies used by IET and their Purpose

Some cookies used by IET are necessary to enable you to navigate the website and use its features, such as accessing protected areas that may contain content for registered users. In addition, IET may use functional cookies to record information about your choices and to allow you to customize the website to your needs. This information is generally anonymized and is not used for any other purpose. This website does not use Targeting cookies to provide targeted advertising to website visitors. However, IET may use cookie information for marketing purposes or to send promotional materials or communications regarding services deemed of interest to you and provided to entities within IETgroup.

For further information on the use of cookies by IET, please refer to the Contact section.

How can cookies be controlled?

After reviewing this Cookie Policy, IET will seek the user's consent to place cookies on their computer or other devices as outlined above. Users can control and manage cookies in various ways. Please note that deleting or blocking specific cookies may impact the user experience, and some parts of the website may no longer be fully accessible.

Most browsers allow users to control which cookies are present and to delete them individually, or to block cookies from all/any websites. However, please be aware that any preferences set will be lost if all cookies are deleted, including the preference to opt out of receiving cookies, as this requires setting an opt-out cookie. For further information on how to modify browser settings to block or enable cookie filters, it is recommended to visit http://www.aboutcookies.org/ or http://www.cookiecentral.com/faq/.

The "Do Not Track" preference is a setting that can be adjusted in your web browser to inform websites that you do not want any tracking to occur. Currently, the website does not respond to "Do Not Track" signals or similar mechanisms. IET does not manage the collection of personal data on online activities conducted on third-party websites or services and does not permit third parties to collect personal data during the user's use of the website. You may withdraw consent to track your anonymous browsing activity on websites via analytics cookies. IET uses the

following service providers, and more information on their privacy policies and cookie management can be found by clicking the following links:

Adobe: http://www.adobe.com/privacy/opt-out.html

Google Analytics: http://www.google.com/analytics/learn/privacy.html

Managing locally shared objects or Flash Cookies

A locally shared object, or Flash cookie, is similar to most other cookies but can store additional types of information. This type of cookie cannot be managed using the mechanisms described above. Some parts of this website use these types of cookies to store user preferences. These cookies can be managed manually by visiting Adobe's website.

Social Buttons

IET employs "social media buttons" to enable users to share or report web pages. These buttons link to third-party social media websites, which may record information about users' internet activities, including their activities on this website. It is advisable to review the respective terms of use and privacy policies of these third-party websites to understand how user information is utilized and how consent can be withdrawn or revoked.

External Web Services

In certain cases, IET utilizes external web services to display content within its pages, such as images, videos, or surveys. As with social media buttons, IET cannot prevent these external sites or domains from collecting information about users' interactions with the embedded content.
